

Setting up Mosek and GPKit on Google Colab

Before we get into the Google Colab environment, we have to acquire a Personal Academic Licence from the [Moesk Website](#).

- Choose the Personal Academic License in the Request type dropdown:

The screenshot shows the Mosek website's 'License Request' page. The 'Request type' dropdown menu is open, and 'Personal Academic License' is selected. Below the dropdown are two buttons: 'Proceed' (orange) and 'Back to Home' (white). The footer contains contact information for Mosek, including phone numbers, address, and email.

- Fill in the details (Please use your student mail ID):

The screenshot shows the Mosek website's 'License Request' page, specifically the 'Personal Academic License' section. The form includes fields for 'Name', 'E-mail Address', and 'Organization'. There is also a checkbox for 'Subscribe to MOSEK Newsletter' and a note 'Expect 1-4 emails a year.' Below the form are two buttons: 'Request License' (orange) and 'Back to License Request' (white). The footer contains contact information for Mosek, including phone numbers, address, and email.

- You'll receive a License Agreement mail once you View and Accpect to the terms you'll now receive a mosek.lic file.
- Please copy the lic file to your GDrive into a 'Mosek' folder.

- In the provided python notebook we have to provide the path to this uploaded lic file: (highlighted in yellow)

- You might be prompted for permission to access the Drive, do give the required access.
